

# mobilize ME

Mobile support tool that helps people with cognitive disorders and their contact persons to ensure structure, communication and sharing of knowledge.

## What is Mobilize Me?

Mobilize Me is a digital support tool for children, youths and adults with cognitive disorders, and it works on iPads, PC's and other devices.

The tool gives the users an overall view of their activities, using time markers and pictures to help visualize their day and week.

## The best conditions

Mobilize Me helps creating the right conditions, so the user can perform and exceed according to their expectations. This yields experiences of success and increased happiness during their everyday life.

## The user

Mobilize Me can be used by people of all ages, but our prime user is 18 + years old. The average user of Mobilize Me will often recognize one or more of these challenges:

- Needs a lot of visual support throughout the day
- Finds it difficult to relate to time
- Lacks initiative
- Easily loses overview
- Has problems staying focused

## Only three minutes a week

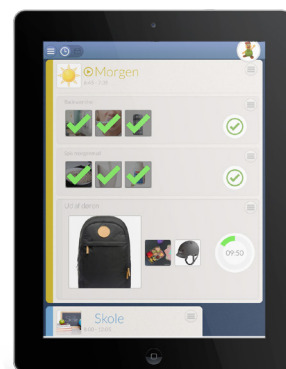

Mobilize Me makes it possible for caretakers and other support persons to create a common calendar with all the user's activities. This creates a sense of calm and security for the user, and the support person only needs to spend three minutes a week maintaining the plan.

## Did you know that:

- 1 Mobilize Me is developed for iPad, Android tablets, PC and SMARTboards in schools, and it's a neutral aid that doesn't attract unwanted and stigmatizing attention to itself. The user can have a light version of their plan on their smartphone.
- 2 Mobilize Me provides access to more than 20.000 pictograms, and offers unlimited usage of your own photos and images.
- 3 You can get a free trial license for Mobilize Me- visit our website.

*All support persons receive an overview of the week which saves time and creates coherence.*

*The simple user interface makes it easy to manage and carry out the day's activities.*
